

ROAN JONES

Student Athlete

I am a national level tennis player training at an elite performance academy and regularly competing internationally, whilst studying Advanced Level courses in mathematics, business and sociology (examined in summer 2022). Aspiring to become a professional tennis player, I am also committed to developing a strong academic profile. At university, I am especially interested in following courses in the fields of engineering, mathematics and business.

PERSONAL QUALITIES / ABILITIES

- Ambitious
- Determined
- Resilient
- Independent
- Analytical
- Empathetic

Having studied through distance learning since primary school (age 11), I have developed the ability to study and work to deadlines, with little direction. Also, through my tennis experience, competing at a high level, I have also developed the ability to perform under pressure and to think quickly and creatively. On a practical basis, more recently, I have been travelling around the world, often on my own, and I have needed to be resourceful and to communicate effectively with others.

EDUCATION

Oxford Open Learning / Home-educated (2015 – present)
